## **REACT JS DEVELOPER & MERN STACK DEVELOPER**

Full Stack Developer proficient in building modern web applications with a focus on user-centric design and seamless functionality. Skilled in React.js and Redux Toolkit for state management, Tailwind CSS for efficient styling, and Material-UI for creating intuitive and visually appealing interfaces. Extensive experience in integrating frontend components with backend technologies like MongoDB, Express, and Node.js to deliver robust and responsive applications. Committed to crafting pixel-perfect user experiences through meticulous attention to detail in CSS and UI design. Passionate about staying current with the latest web development trends and delivering high-quality code that meets project goals. Worked on API creation with Mongo DB Aggregation, express router, etc.

- **Technology** - React JS, JavaScript, HTML, CSS, Tailwind CSS, Material UI React Redux Toolkit, REST API, Axios, Redux, Mongo DB, MongoDB Aggregation, Express, Node.js, Socket.io, Google Firebase
- **PROJECTS:** -
  - **Real-Time Chat Application:**
    1. Developing full-stack real-time chat application using the MERN stack and socket.io.
    2. Created features such as multiple themes, user authentication, send and receive text and images, update profile pic etc.
    3. Worked on backend API Creation with Mongo DB aggregation for users, and messages data management.
    4. Also use socket.io for real-time chat between users.
  - **E-commerce Platform for product selling:**
    1. Developed full-stack e-commerce platform using the MERN stack.
    2. Implemented features such as product listing, user authentication, and order processing.
  - **Recipe Finder App:**
    1. Developed a recipe finder application using third party API. It searches for different recipes and also add them to favorites. And all fetched items when clicked navigated to that specific video on youtube.
    2. Use TheMealDB API for fetching data and also store it into local storage for favorite section.
  - **Several other clients based dynamic as well static websites using below methodologies:**
    1. Developed and maintained scalable and responsive web applications using the MERN stack.
    2. Collaborated with the UI/UX team to implement user-friendly interfaces and enhance the overall user experience.
    3. Implemented RESTful APIs to facilitate communication between front-end and back-end components.
    4. Integrated third-party APIs for enhanced functionality and data enrichment.
    5. API creation with help of mongo DB Aggregation.
    6. Conducted code reviews to ensure code quality, performance, and adherence to coding standards.

## **KEY COMPETENCIES / SKILLS**

**Languages:** JavaScript (ES6+), HTML5, CSS3

**Front-End:** React.js, React Redux Toolkit, HTML, CSS, Tailwind CSS, Material UI

**Back-End:** Node.js, Express.js

**Database:** MongoDB, Mongoose

**Version Control:** Git, GitHub

**API Integration:** RESTful APIs, JSON, Axios, Context API

**Deployment:** Vercel, Netlify, Render

**Other:** Docker (Learner)

- Full-Stack Development (MERN)
- User Authentication & Authorization
- RESTful API Development
- Responsive Web Design
- MongoDB Aggregation
- API Creation

## **EDUCATION**

### **BS IN ZOOLOGY (BS-4Years)**

THE ISLAMIA UNIVERSITY, BAHAWALPUR (2019 - 2023)  
Completed 4 years regular lateral entry course with 84.6%

### **INTERMEDIATE (12th Standard) - 84.8%**

SWOT H/S School, LIAQUATPUR (2015)

### **HIGH SCHOOL (10th Standard) - 88.7%**

Govt. Secondary School, LIAQUATPUR (2016)
